EXPERIENCES

- IAL-GET(Data Scientist) , **IndiGo (InterGlobe Aviation)** Jun 25 – Present
- Designed and deployed an **AI agent-driven MCP server** for automating **Bluechip profile updates** across multiple internal databases, cutting TAT from **12 days to under 1 minute**.
 - Integrated intelligent workflow orchestration, enabling consistent and error-free data synchronisation across different databases.
 - Collaborated with business and IT stakeholders to **standardise update logic**, ensure compliance, and deliver a solution that improved efficiency and reliability.
- AI Engineer Intern, **Swostitech Solutions** Dec 24 – Jan 25
- Implemented **Retrieval-Augmented Generation (RAG)** for **1,000+ documents**, optimizing retrieval accuracy and response quality across **OpenAI, LLaMA, and Mistral** models.
 - Improved **retrieval speed by 30%**, enhancing efficiency and scalability of document processing through model fine-tuning and performance benchmarking.
- Data Analyst Intern, **Rigi**, Bangalore Jul 24 – Dec 24
- Automated creation of **large** Excel reports with transaction data for **100+ creators**, cutting manual effort by **50%** and improving reporting efficiency.
 - Optimized complex SQL queries, reducing dashboard query time by **30%** and unlocking actionable insights via Metabase.

EDUCATION

Birla Institute of Technology and Science Pilani - Pilani Campus India
Bachelor of Engineering in Civil (Hons.) + Minor in Data Science, CGPA 7.8/10 August 2021 – May 2025

AWARDS

First Prize - ASCE International Conference (CISSC-2025) Chandigarh
Winner in UG Event on Challenges and Innovations for Sustainable Smart Cities, ASCE India Section

PUBLICATIONS

- Nanavaty, A., Sharma, R., Pandita, B. et al. Integrating deep learning for visual question answering in Agricultural Disease Diagnostics: Case Study of Wheat Rust. *Sci Rep* 14, 28203 (2024). doi:10.1038/s41598-024-79793-2
- Rodríguez-Narvaez, O. M., Pandita, B., Goyal, O., Rallapalli, S., Ranasinghe, M. I., Conejo-Dávila, A. S., ... & Goonetilleke, A. (2025). Efficacy of biochar as a catalyst for a Fenton-like reaction: Experimental, statistical and mathematical modeling analysis. *Journal of Water Process Engineering*, 70, 107014.

RESEARCH AND PROJECTS

- Meeting Summariser App** | Self Project Oct 24 – Nov 24
- Built a Streamlit-based meeting summarizer using OpenAI Whisper and GPT, achieving **95% transcription accuracy** and generating concise, actionable summaries.
- Enhancing Image Clarity through CycleGAN-based Dehazing** | Deep Learning Mar 24 – Apr 24
- Developed a CycleGAN model for image dehazing, improving image clarity by **40%** across diverse haze conditions through cycle consistency and adversarial training from scratch.
- CNN-Based Sound Classification for Multi-Class Recognition** | Deep Learning Jan 24 – Mar 24
- Designed and tested CNN architectures (ResNet, DenseNet, MobileNetV2, custom 6-layer) to classify **13 sound classes** with high accuracy.
 - Preprocessed **6000+ audio samples** into Mel spectrograms using Librosa; noise reduction improved accuracy by **15%**.

TECHNICAL SKILLS

Languages: Python, R, PostgreSQL
Libraries & Frameworks: Semantic-Kernel, Autogen, LangChain, FastAPI, FastMCP, PyTorch, TensorFlow
Enterprise Systems: MCP Servers, AI Agents, APIs, Chatbots, Streamlit, Data Synchronisation
Softwares & Tools: Metabase, Power BI, Tableau, RStudio, Postman, Git, Docker, MS Office
Relevant Courses: Generative AI, Deep Learning, Machine Learning, Foundations of Data Science, Applied Statistical Methods
